MEPCO Offers Expanded Line of In-Line Float and Thermostatic Steam Traps and New Literature for Bucket Traps

For Immediate Release – June 13, 2011

Grand Rapids, MI – MEPCO announces the launch of an expanded and complete line of In-Line Float and Thermostatic Steam Traps. The new Inverted Bucket traps have the same construction, design and performance features as our current line of In-Line Float and Thermostatic Traps.

You can find a new cut sheet for the expanded In-Line Float and Thermostatic Traps and our Bucket Traps on our website. You can place your orders immediately. As always, if you have any questions, please contact customer service.
